Project Description/Justification:

The Alaska Highway Safety Office manages highway safety program funds from the National Highway Traffic Safety Administration (NHTSA). Federally funded grants are directed toward public outreach and education; enforcement; promotion of new safety technology; integration of public health strategies; collaboration with safety and private sector organizations; and cooperation with state and local governments. The match request satisfies the 50% match requirement for the program administration grant.

Section 402 - STATE AND COMMUNITY HIGHWAY SAFETY GRANT PROGRAMS

These grants support a state highway safety program designed to reduce traffic crashes and resulting deaths, injuries, and property damage. Funding is used to identify highway safety problems, set goals and performance measures for highway safety improvements, provide start-up money for new programs, give direction and support to existing safety programs, and fund analyses to determine progress in improving safety.

Section 411 - STATE HIGHWAY SAFETY DATA IMPROVEMENTS INCENTIVE GRANTS

This section encourages states to adopt and implement effective programs to improve the timeliness, accuracy, completeness, uniformity, and accessibility of state data that is needed to identify priorities for national, state, and local highway and traffic safety programs; to evaluate the effectiveness of efforts to make such improvements; to link these state data systems, including traffic records, with other data systems within the state; and to improve the compatibility of the state data system with national data systems and data systems of other states to enhance the ability to observe and analyze
